QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended: **March 31, 2022**

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission File No. **000-54693**

LEATT CORPORATION

(Exact name of registrant as specified in its charter)

Nevada

(State or other jurisdiction of incorporation or organization)

20-2819367

(I.R.S. Employer Identification No.)

**12 Kiepersol Drive, Atlas Gardens, Contermanskloof Road,
Durbanville, Western Cape, South Africa, 7441**

(Address of principal executive offices)

+(27) 21-557-7257

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of each of the issuer's classes of common stock, as of May 6, 2022 is as follows:

<u>Class of Securities</u>	<u>Shares Outstanding</u>
Common Stock, \$0.001 par value	5,791,683

LEATT CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1 - Basis of presentation

The consolidated balance sheet as of December 31, 2021 was audited and appears in the Form 10-K filed by the Company with the Securities and Exchange Commission on March 10, 2022. The consolidated balance sheet as of March 31, 2022 and the consolidated statements of operations and comprehensive income for the three months ended March 31, 2022 and 2021, changes in stockholders' equity for the three months ended March 31, 2022, cash flows for the three months ended March 31, 2022 and 2021, and the related information contained in these notes have been prepared by management without audit. In the opinion of management, all adjustments (which include only normal recurring items) necessary to present fairly the financial position, results of operations and cash flows in conformity with generally accepted accounting principles as of March 31, 2022 and for all periods presented have been made. Interim operating results are not necessarily indicative of operating results for a full year. Certain information and note disclosures normally included in the Company's annual financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. While management of the Company believes that the disclosures presented are adequate to make the information not misleading, it is suggested that these condensed consolidated financial statements be read in conjunction with the audited financial statements and notes thereto for the year ended December 31, 2021 as filed with the Securities and Exchange Commission in the Company's Form 10-K.

Note 2 - Inventory

Inventory is stated at the lower of cost or net realizable value. Cost is determined using the first-in first-out (FIFO) method. Inventory consists primarily of finished goods. Shipping and handling costs are included in the cost of inventory. In assessing the inventory value, the Company must make estimates and judgments regarding reserves required for product obsolescence, aging of inventory and other issues potentially affecting the saleable condition of products. In performing such evaluations, the Company utilizes historical experience as well as current market information. The reserve for obsolescence was \$129,839 at March 31, 2022 and \$116,183 at December 31, 2021.

Note 3 - Operating Leases - Right-of-Use Assets and Lease Liability Obligations

The Company has three non-cancelable operating leases, for office and warehousing space, that expires in June 2022 and January 2027, respectively. Rent expense for these operating leases is recognized over the term of the lease on a straight-line basis. A lease for office machinery lapsed on March 31, 2022.

Below is a summary of the Company's Operating Right-of-Use Assets and Operating Lease liabilities as of March 31, 2022 and December 31, 2021:

	2022	2021
<i>Assets</i>		
Operating lease ROU assets	\$ 1,287,949	\$ 1,393,213
<i>Liabilities</i>		
Operating lease liabilities, current	\$ 279,148	\$ 318,621
Operating lease liabilities, net of current portion	1,008,801	1,074,592
Total operating lease liabilities	\$ 1,287,949	\$ 1,393,213

During the three months ended March 31, 2022 and 2021 the Company recognized \$99,318 and \$54,149, respectively, in operating lease expenses, which are included in office lease and expenses in the Company's consolidated statements of operations and comprehensive income.

Generally, the Company's lease agreements do not specify an implicit rate. Therefore, the Company estimates the incremental borrowing rate, which is defined as the interest rate the Company would pay to borrow on a collateralized basis, considering such factors as length of lease term and the risks of the economic environment in which the leased asset operates. As of March 31, 2022, and December 31, 2021 the following disclosures for the remaining lease terms and incremental borrowing rates were applicable:

Supplemental disclosure	March 31, 2022	December 31, 2021
Weighted average remaining lease term	5 years	5 years
Weighted average discount rate	4.08%	4.08%

Maturities of lease liabilities as of March 31, 2022 were as follows:

Year ended December 31,	Amounts under Operating Leases	
Remaining 2022	\$	216,472
2023		273,449
2024		281,664
2025		290,098
2026		298,791
2027		25,455
Total minimum lease payments	\$	1,385,929
Less: amount representing interest	\$	(97,980)
Total operating lease liabilities	\$	1,287,949

Supplemental cash flow information for the three months ended March 31, 2022 and 2021 are as follows:

	Three months ended March 31, 2022		Three months ended March 31, 2021	
Cash paid for amounts included in the measurement of lease liabilities	\$	82,817	\$	59,285
Right-of-use assets obtained in exchange for lease obligations	\$	-	\$	15,170

Note 4 - Revolving line of Credit facility

On November 19, 2018, the Company entered into a \$1,000,000 revolving line of credit agreement with a bank. Advances under the line of credit bear interest at the LIBOR Daily Floating Rate plus 2.5 percentage points commencing January 1, 2019. The line of credit matured on November 19, 2020, at which time the unpaid principal, interest, or other charges outstanding under the agreement were due and payable. On November 5, 2020, the Company executed an amendment to the line of credit agreement to extend the credit facility through November 19, 2021. The amendment took retroactive effect to October 27, 2020 and introduced an index floor so that payments for any future advances will bear interest at the greater of the LIBOR Daily Floating Rate or an Index Floor of 1.25 percentage points plus 2.5 percentage points. Obligations under the line of credit are secured by equipment and fixtures in the United States of America, accounts receivable and inventory of Leatt Corporation and Two-Eleven Distribution, LLC. On March 1, 2021, the Company executed an amendment to the line of credit. The amendment took retroactive effect to February 17, 2021 and extended the line of credit facility through February 28, 2022 and increased the revolving line of credit to \$1,500,000. Effective January 21, 2022, the Company executed an amendment agreement for the line of credit to extend the line of credit facility through February 28, 2023, and to replace interest determined by LIBOR daily Floating Rate with the Bloomberg short-term Bank Yield Index Rate. As of March 31, 2022, and December 31, 2021, respectively there were no advances of the line of credit leaving \$1,500,000 and \$1,500,000 available for advances.

Note 5 - Short-term Loan

The Company carries product liability insurance policies with a U.S. and South African-based insurance carrier. The Company finances payment of both of its product liability insurance premiums over the period of coverage which is generally twelve months. The U.S. short-term loan is payable in monthly installments of \$102,078 over eleven months including interest at 4.650% and the South African short-term loan is payable in monthly installments of \$6,414, over a ten-month period at a flat interest rate of 3.10%.

The Company carries various short-term insurance policies in the U.S. The Company finances payment of its short-term insurance premiums over the period of coverage, which is generally twelve months. The short-term loan is payable in eleven payments of \$19,860 at 4.350% annual interest rate.

Note 6 - Note payable

Two Eleven entered into a Note Payable with a bank effective December 17, 2021 in the principal amount of \$272,519, secured by equipment. The Note is payable in 36 consecutive monthly installments of \$7,990, including interest at a fixed rate of 3.5370%, commencing February 5, 2022, and continuing to January 5, 2025. As of March 31, 2022 and December 31, 2021, the amounts of \$258,125 and \$272,519 were outstanding, respectively.

	March 31, 2022	December 31, 2021
<i>Liabilities</i>		
Note payable, current	\$ 88,168	\$ 83,270
Note payable, net off current portion	169,957	189,249
	<u>\$ 258,125</u>	<u>\$ 272,519</u>

Principal maturities of note payable as of March 31, 2022 were as follows:

Year ended December 31,	Amounts under Notes Payable	
Remaining 2022	\$	65,834
2023		90,535
2024		93,790
2025		7,966
	<u>\$</u>	<u>258,125</u>

Note 7 - Revenue and Cost Recognition

The Company's products are sold worldwide to a global network of distributors and dealers, and directly to consumers when there are no dealers or distributors in their geographic area or where consumers choose to purchase directly via the Company's e-commerce website (collectively the "customers").

Revenues from product sales are recognized when earned, net of applicable provisions for discounts and returns and allowances in the event of product defect where no exchange of product is possible. Revenues are recognized when our performance obligations are satisfied as evidenced by transfer of control of promised goods to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. Product royalty income, representing less than 1% of total revenues, is recorded as the underlying product sales occur, in accordance with the related licensing arrangements.

The Company's standard distributor payment terms range from pre-payment in full to 60 days after shipment and subsequent sales of our products by distributors have no effect on the amount and timing of payments due to us, however, in limited instances qualified distributors and dealers may be granted extended payment terms during selected order periods. In performing such evaluations, we utilize historical experience, sales performance, and credit risk requirements. Furthermore, products purchased by distributors may not be returned to us in the event that any such distributor relationship is terminated.

Since the Company (through its wholly-owned subsidiary) serves as the distributor of Leatt products in the United States, the Company records its revenue and related cost of revenue for its product sales in the United States upon shipment of the merchandise to the dealer or to the ultimate consumer when there is no dealer in the geographic area or the consumer chooses to purchase directly from the Company's e-commerce website and the sales order was received directly from, and paid by, the ultimate consumer. Since the Company (through its South African branch) serves as the distributor of Leatt products in South Africa, the Company records its revenue and related cost of revenue for its product sales in South Africa upon shipment of the merchandise from the branch to the dealer. The Company's standard terms and conditions of sale for non-consumer direct or web-based sales do not allow for product returns other than under warranty.

International sales (other than in the United States and South Africa) are generally drop-shipped directly from the third-party manufacturer to the international distributors. Revenue and related cost of revenue is recognized at the time of shipment from the manufacturer's port when the shipping terms are Free On Board ("FOB") shipping point, Cost and Freight ("CFR") or Cost and Insurance to named place ("CIP") as legal title and risk of loss to the product pass to the distributor. Sales to all customers (distributors, dealers and consumers) are generally final; however, in limited instances, product may be returned and exchanged due to product quality issues. Historically, returns due to product quality issues have not been material and there have been no distributor terminations that resulted in material product returns. Cost of revenues also includes royalty fees associated with sales of Leatt-Brace products. Product royalty income is recorded as the underlying product sales occur, in accordance with the related licensing arrangements.

In the following table, revenue is disaggregated by the source of revenue:

	Three months ended March 31,			
	2022	% of Revenues	2021	% of Revenues
Consumer and athlete direct revenues	\$ 595,479	2%	\$ 570,701	5%
Dealer direct revenues	5,003,608	21%	5,566,732	43%
International distributor revenues	18,629,021	77%	6,759,042	52%
	\$ 24,228,108	100%	\$ 12,896,475	100%

The Company reviews the reserves for customer returns at each reporting period and adjusts them to reflect data available at that time. To estimate reserves for returns, the Company estimates the expected returns and claims based on historical rates as well as events and circumstances that indicate changes to historical rates of product returns and claims. Historically, returns due to product quality issues have not been material and there have been no distributor terminations that resulted in product returns. The provision for estimated returns at March 31, 2022 and December 31, 2021 was \$0, and \$0, respectively.

Accounts receivable consist of amounts due to the Company from normal business activities. Credit is granted to substantially all distributors on an unsecured basis. The Company continuously monitors collections and payments from customers and maintains an allowance for doubtful accounts receivable based upon the expected credit losses determined utilizing historical experience and any specific customer collection issues that have been identified. In determining the amount of the allowance, the Company is required to make certain estimates and assumptions. Accounts receivable balances that are still outstanding after the Company used reasonable collection efforts are written off as uncollectible. While such credit losses have historically been minimal, within the Company's expectations and the provisions established, the Company cannot guarantee that it will continue to experience the same credit loss rates as in the past. A significant change in the liquidity or financial position of any of the Company's significant customers could have a material adverse effect on the collectability of the Company's accounts receivable and future operating results. The allowance of doubtful accounts was \$306,110 at March 31, 2022 and \$291,584 at December 31, 2021.

Sales commissions are expensed when incurred, which is generally at the time of sale, because the amortization period would have been one year or less. These costs are recorded in commissions and consulting expenses within operating expense in the accompanying consolidated statements of operations and comprehensive income.

Shipping and handling activities associated with outbound freight, after control over a product has transferred to a customer, are accounted for as a fulfillment cost and are included in revenues and cost of revenues in the accompanying consolidated statements of operations and comprehensive income.

Revenue recognized from contracts with customers is recorded net of sales taxes, value added taxes, or similar taxes that are collected on behalf of local taxing authorities.

Note 8 - Income Taxes

The Company uses the asset and liability approach to account for income taxes. Deferred tax assets and liabilities are determined based on the differences between the financial statement carrying amounts and the income tax basis of assets and liabilities. A valuation allowance is applied against any net deferred tax asset if, based on available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. The provision for income taxes included taxes currently payable, if any, plus the net change during the period in deferred tax assets and liabilities recorded by the Company.

The Company applies the provisions of FASB ASC Topic 740-10, Accounting for Uncertainty in Income Taxes ("Standard"), which provides that the tax effects from an uncertain tax position can be recognized in the consolidated financial statements only if the position is more likely than not of being sustained upon an examination by tax authorities. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. Additionally, the standard provides guidance on derecognition, classification, interest and penalties; accounting in interim periods, disclosure and transition, and any amounts when incurred would be recorded under these provisions.

The Company's practice is to recognize interest and/or penalties related to income tax matters in income tax expense. As of March 31, 2022, the Company has no unrecognized tax benefits.

Note 9 - Net Income Per Share of Common Stock

Basic net income per common share is computed using the weighted-average number of common shares outstanding during the period. Diluted net income per share is computed using the weighted-average number of common stock shares and dilutive potential common shares outstanding during the period. For the three months ended March 31, 2022, the Company had 510,000 potential common shares, consisting of 120,000 preferred shares, and options to purchase 390,000 shares, outstanding that were dilutive.

Note 10 - Common Stock

In January 2022, the Company issued 78,000 shares of common stock to an employee who exercised stock options. In March 2022, the Company issued 40,000 shares of common stock to two employees who exercised stock options.

Stock-based compensation expense related to vested stock options during the three months ended March 31, 2022 was \$82,530. As of March 31, 2022, there was \$0 of unrecognized compensation cost related to unvested stock options.

Stock-based compensation expense related to vested restricted stock awards during the three months ended March 31, 2022 was \$120,240. As of March 31, 2022, there was \$360,720 of unrecognized compensation cost related to unvested restricted stock.

Note 11 - Recent Accounting Pronouncements

Recently Adopted Accounting Pronouncements - In November 2021, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2021-10 Government Assistance (Topic 832): "Disclosures by Business Entities About Government Assistance," which requires entities to provide annual disclosures about transactions with a government that are accounted for by applying a grant or contribution model by analogy. The standard is effective for annual periods beginning after December 15, 2021. The Company adopted the standard effective January 1, 2022. The adoption of the standard had no impact on the Company's consolidated financial statements.

Accounting Pronouncements Not Yet Adopted - The Company evaluated all ASU's issued by the FASB for consideration of their applicability. ASU's not included in our disclosures were assessed and determined to be either not applicable or are not expected to have a material impact on the Company's consolidated financial statements.

Note 12 - Litigation

In the ordinary course of business, the Company is involved in various legal proceedings involving product liability and personal injury and intellectual property litigation. The Company is insured against loss for certain of these matters. The Company will record contingent liabilities resulting from asserted and unasserted claims against it when it is probable that the liability has been incurred and the amount of the loss is reasonably estimable. The Company will disclose contingent liabilities when there is a reasonable possibility that the ultimate loss will exceed the recorded liability. While the outcome of currently pending litigation is not yet determinable, the ultimate exposure with respect to these matters cannot be ascertained. However, based on the information currently available to the Company, the Company does not expect that any liabilities or costs that might be incurred to resolve these matters will have a material adverse effect on the financial condition, results of operations, liquidity or cash flows of the Company.

Note 13 - Risks and Uncertainties

As the COVID-19 pandemic continues to evolve, the Company believes the extent of the impact to its operations will be primarily driven by the severity and duration of the pandemic, the pandemic's impact on the U.S. and global economies and the timing, scope and effectiveness of federal, state and local governmental responses to the pandemic. Due to strong consumer demand for outdoor product categories, the Company did not see any significant material negative impact of COVID-19 on the Company's results of operations for the quarter ended March 31, 2022. The Company remains cautiously optimistic that ongoing efforts to increase the availability of new COVID-19 vaccines worldwide will mitigate the spread of the virus throughout Europe and the U.S. (our largest markets) and bring about an end to global quarantines. The continued mutation and spread of the virus, economic headwinds caused by global quarantines or the occurrence of any other catastrophic events, could have a negative impact on sales revenue for the coming periods and beyond.

Note 14 - Subsequent Events

The Company has evaluated all subsequent events through the date the financial statements were released.

On February 24, 2022, the Company entered into a new lease agreement for warehousing space in South Africa, commencing on April 1, 2022 and expiring in August 2023. The lease agreement requires the Company to pay monthly rent of \$1,769 for the first eleven months and \$1,910 for the following six months. The Company expects to recognize an operating lease right-of-use asset and operating lease liability of \$26,372 and \$26,372 as of the effective date of the lease. The estimated interest rate for this lease agreement as of April 1, 2022 is 3.750%.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.**Special Note Regarding Forward Looking Statements**

This report contains forward-looking statements that are contained principally in the sections entitled "Our Business," "Risk Factors," and "Management's Discussion and Analysis of Financial Condition and Results of Operations." These statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. These risks and uncertainties include, but are not limited to, the factors described in the section captioned "Risk Factors" in this report. In some cases, you can identify forward-looking statements by terms such as "anticipates," "believes," "could," "estimates," "expects," "intends," "may," "plans," "potential," "predicts," "projects," "should," "would" and similar expressions intended to identify forward-looking statements. Forward-looking statements reflect our current views with respect to future events and are based on assumptions and subject to risks and uncertainties. Given these uncertainties, you should not place undue reliance on these forward-looking statements. These forward-looking statements include, among other things, statements relating to:

- our expectations regarding growth in the motor sports and bicycle market;
- our expectation regarding increasing demand for protective equipment used in the motor sports and bicycle market;
- our belief that we will be able to effectively compete with our competitors and increase our market share;
- our expectations with respect to increased revenue growth and our ability to achieve profitability resulting from increases in our production volumes; and
- our future business development, results of operations and financial condition.

Also, forward-looking statements represent our estimates and assumptions only as of the date of this quarterly report. You should read this quarterly report and the documents that we reference and filed as exhibits to the quarterly report completely and with the understanding that our actual future results may be materially different from what we expect. Except as required by law, we assume no obligation to update any forward-looking statements publicly, or to update the reasons actual results could differ materially from those anticipated in any forward-looking statements, even if new information becomes available in the future.

Use of Certain Defined Terms

Except as otherwise indicated by the context, references in this annual report to:

- "Leatt," "we," "us," "our," the "Registrant" or the "Company" are to the combined business of Leatt Corporation, a Nevada corporation, its South African branch, Leatt SA, and its direct, wholly-owned subsidiary, Two Eleven.
- "Leatt SA" are to the Company's branch office known as 'Leatt Corporation (Incorporated in the State of Nevada)' incorporated under the laws of South Africa with registration number: 2007/032780/10;
- "Leatt USA" are to Leatt USA, LLC, a Nevada Limited Liability Company;
- "PRC", and "China" are to the People's Republic of China;
- "Two Eleven" refers to Two Eleven Distribution, LLC, a Nevada Limited Liability Company;
- "Securities Act" are to the Securities Act of 1933, as amended, and to "Exchange Act" are to Securities Exchange Act of 1934, as amended;
- "South Africa" are to the Republic of South Africa;
- "U.S. dollar," "\$" and "US\$" are to the legal currency of the United States;
- "Xceed Holdings" refers to Xceed Holdings CC., a close corporation incorporated under the laws of South Africa, and wholly- owned by The Leatt Family Trust, of which Dr. Christopher J. Leatt, the Company's chairman, is a Trustee and Beneficiary; and
- "ZAR" refers to the South African Rand, the legal currency of South Africa. For all ZAR amounts reported, the dollar amount has been calculated on the basis that \$1 = ZAR14.4848 for its March 31, 2022 balance sheet.

Overview of Our Business

We were incorporated in the State of Nevada on March 11, 2005, under the name Treadzone, Inc. We were a shell company with little or no operations until March 1, 2006, when we acquired the exclusive global manufacturing, distribution, sale and use rights to the Leatt-Brace®, pursuant to a license agreement between the Company and Xceed Holdings, a company controlled by the Company's Chairman and founder, Dr. Christopher Leatt. On May 25, 2005, we changed our name to Leatt Corporation in connection with our anticipated acquisition of the Leatt-Brace® rights. Leatt designs, develops, markets and distributes personal protective equipment for participants in all forms of motor sports and leisure activities, including riders of motorcycles, bicycles, snowmobiles and ATVs. The Company sells its products to customers worldwide through a global network of distributors and retailers. Leatt also acts as the original equipment manufacturer for neck braces sold by other international brands.

The Company's flagship products are based on the Leatt-Brace® system, a patented injection molded neck protection system owned by Xceed Holdings, designed to prevent potentially devastating injuries to the cervical spine and neck. The Company has the exclusive global manufacturing, distribution, sale and use rights to the Leatt-Brace®, pursuant to a license agreement between the Company and Xceed Holdings, a company owned and controlled by the Company's Chairman and founder, Dr. Christopher Leatt. The Company also has the right to use apparatus embodying, employing and containing the Leatt-Brace® technology and has designed, developed, marketed and distributed other personal protective equipment using this technology, as well as its own developed technology, including the Company's new body protection products which it markets under the Leatt Protection Range brand.

The Company's research and development efforts are conducted at its research facilities, located at its executive headquarters in Cape Town, South Africa. The Company employs 3 full-time employees who are dedicated exclusively to research, development, and testing. The Company also utilizes consultants, academic institutions and engineering companies as independent contractors or consultants, from time to time, to assist it with its research and development efforts. Leatt products have been tested and reviewed internally and by external bodies. All Leatt products are compliant with applicable European Union directives, or CE certified, where appropriate. Depending on the market we have other certifications outside of CE. For the US market our motorcycle helmets comply with the DOT (FMVSS 218) helmet safety standard and our bicycle helmet complies with EN1078, as well as CPSC 1203. Our downhill specific bicycle helmets also comply with ASTM F1952. For our Australian Market our bicycle helmet complies with AS/NZS 2063. For the UK market our motorcycle helmets comply with ACU Gold and our GPX 3.5 helmet with JIS T 8133 for the Japanese Market. For the Brazilian market our Moto 7.5 and Moto 3.5 helmets comply with NBR 7471. We are currently in the process of applying to certify our Moto 3.5 helmet and latest helmet model Moto 7.5 to the CCC standard in China.

Our products are predominately manufactured in China in accordance with our manufacturing specifications, pursuant to outsourced manufacturing arrangements with third-party manufacturers located there, based on agreed terms. We are also building manufacturing capacity outside China, namely, in Thailand and Bangladesh. The Company utilizes outside consultants and its own employees to ensure the quality of its products through regular on-site product inspections. Products sold to our international customers are usually shipped directly from our consolidation warehouse or manufacturers' warehouses to customers or their import agents.

Leatt earns revenues through the sale of its products through approximately 55 distributors worldwide, who in turn sell its products to retailers. Leatt distributors are required to follow certain standard business terms and guidelines for the sale and distribution of Leatt products. Two Eleven and Leatt SA directly distribute Leatt products to dealers in the United States and South Africa, respectively.

Principal Factors Affecting Our Financial Performance

We believe that the following factors will continue to affect our financial performance:

- **Global Economic Fragility** - The ongoing turmoil in the global economy, especially in the U.S., Asia and Europe, may have an impact on our business and our financial condition, and we may face challenges if economic conditions do not improve. These economic conditions may impact levels of consumer spending in the foreseeable future. If demand for our products fluctuates as a result of these economic conditions or otherwise, our revenue and gross margin could be harmed.
- **Trade Restrictions** - We engage in international manufacturing and sales which exposes us to trade restrictions and disruptions that could harm our business and competitive position. Most of our products are manufactured in China, and the U.S. administration has announced tariffs on certain products imported into the United States with China as the country of origin. While these tariffs have not had a significant impact on the shipment of our products to international markets as at March 31, 2022, we believe that the future imposition of, or significant increases in, the level of tariffs, custom duties, export quotas and other barriers and restrictions by the U.S. on China or other countries could disrupt our supply chain, increase the cost of our raw materials and therefore our pricing, and impose the burdens of compliance with foreign trade laws, any of which could potentially affect our bottom line and sales. While we are in continuous discussions with our manufacturers to ensure there are contingencies in place, we cannot assure you that we will not be adversely affected by changes in the trade laws of foreign jurisdictions where we sell and seek to sell our products.

- **Fuel Prices** - Significant fluctuations in fuel prices could have both a positive and negative effect on our business and operations. A significant portion of our revenue is derived from international sales and significant fluctuations in world fuel prices could significantly increase the price of shipping or transporting our products which we may not be able to pass on to our customers. On the other hand, fluctuations in fuel prices lead to higher commuter costs which may encourage the increased use of motorcycles and bicycles as alternative modes of transportation and lead to an increase in the market for our protection products.
- **Product Liability Litigation** - We face an inherent business risk of exposure to product liability claims arising from the claimed failure of our products to help prevent the types of personal injury or death against which they are designed to help protect. Therefore, we have acquired very costly product liability insurance worldwide. We have not experienced any material uninsured losses due to product liability claims, but it is possible that we could experience material losses in the future. After a two-week trial in the United States District Court for the Northern District of Ohio (Eastern) ending on April 17, 2014, a federal jury returned a defense verdict for the Company in the first Leatt-Brace® product liability lawsuit to be tried in the United States. The plaintiffs in that case had alleged that defective product design and failure to warn had caused a motocross rider to suffer multiple mid-thoracic spine fractures, causing immediate and permanent paraplegia, when he crashed at a relatively low speed on February 13, 2011. When the accident occurred, he was wearing a helmet and other safety gear from several different companies, including the Company's acclaimed Leatt-Brace®. The Company produced evidence at trial showing that his thoracic paraplegia was an unavoidable consequence of his fall, not the result of wearing a Leatt-Brace®, and that the neck brace likely saved his life (or saved him from quadriplegia) by preventing cervical spine injury. The Company had maintained from the onset that this and a small handful of other lawsuits are without merit and that it would vigorously defend itself in each case. In this case, the plaintiffs subsequently appealed the court's decision, and the parties reached an amicable settlement. Although we carry product liability insurance, a successful claim brought against us could significantly harm our business and financial condition and have an adverse impact on our ability to renew our product liability insurance or secure new coverage.
- **Protection of Intellectual Property** - We believe that the continued success of our business is dependent on our intellectual property portfolio consisting of globally registered trademarks, design patents and utility patents related to the Leatt-Brace®. We believe that a loss of these rights would harm or cause a material disruption to our business and, our corporate strategy is to aggressively take legal action against any violators of our intellectual property rights, regardless of where they may be. From time to time, we have had to enforce our intellectual property rights through litigation, and we may be required to do so in the future. Such litigation may result in substantial costs and could divert resources and management attention from the operations of our business.
- **Fluctuations in Foreign Currencies** - We are exposed to foreign exchange risk as our revenues and consolidated results of operations may be affected by fluctuations in foreign currency as we translate these currencies into U.S. dollars when we consolidate our financial results. While our reporting currency is the U.S. Dollar, a portion of our consolidated revenues are denominated in South African Rand, or ZAR, certain of our assets are denominated in ZAR, and our research and marketing operations in South Africa utilize South African labor sources. A decrease in the value of the U.S. dollar in relation to the ZAR could increase our cost of doing business in South Africa. If the ZAR depreciates against the U.S. Dollar, the value of our ZAR revenues, earnings and assets as expressed in our U.S. Dollar financial statements will decline. We have not entered into any hedging transactions in an effort to reduce our exposure to foreign exchange risk. Furthermore, since 78% of our sales are derived outside the U.S., where the U.S. dollar is not the primary currency, significant fluctuations in exchange rates such as the strengthening of the dollar versus our customers' local currency can adversely affect our ability to remain competitive in those areas.
- **Natural or Man-made Catastrophic Events** - We are exposed to natural or man-made catastrophic events that may disrupt our business and may reduce consumer demand for our products. A disruption or failure of our systems or operations in the event of a natural disaster, health pandemic, such as the outbreak and global spread of COVID-19 or the coronavirus, or a man-made catastrophic event could cause delays in completing sales, continuing production or performing other critical functions of our business, particularly if a catastrophic event occurred at our primary manufacturing locations or our distributor locations worldwide. Any of these events could severely affect our ability to conduct normal business operations and, as a result, our operating results could be adversely affected. There may also be secondary impacts that are unforeseeable, such as impacts on our consumers and on consumer purchasing behavior, which could cause delays in new orders, delays in completing sales or even order cancellations. As the COVID-19 pandemic continues to evolve, we believe the extent of the impact to our operations will be primarily driven by the severity and duration of the pandemic, the pandemic's impact on the U.S. and global economies and the timing, scope and effectiveness of federal, state and local governmental responses to the pandemic. Due to strong consumer demand for outdoor product categories, we did not see any significant material negative impact of COVID-19 on the Company's results of operations for the quarter ended March 31, 2022. We remain cautiously optimistic that ongoing efforts to increase the availability of new COVID-19 vaccines worldwide will mitigate the spread of the virus throughout Europe and the U.S. (our largest markets) and bring about an end to global quarantines. The continued mutation and spread of the virus, economic headwinds caused by global quarantines, or the occurrence of any other catastrophic events, could have a negative impact on our sales revenue for the coming periods and beyond.

- **Conflict in Ukraine** - We are exposed to conflicts that may disrupt our business and may reduce consumer demand for our products. A disruption or failure of our systems, government sanctions or operations in the event of a conflict could directly affect consumer demand for our products, cause delays in completing sales, shipping of our products, continuing production or performing other critical functions of our business, particularly if a conflict occurs at our primary manufacturing locations or our distributor locations worldwide. Furthermore, a prolonged conflict may have unintended global consequences such as increased inflation, fuel and transportation costs. We have not seen any significant impact due to the outbreak of war in Ukraine and the subsequent institution of sanctions against Russia by the U.S. and several European nations on the Company's results of operations for the quarter ended March 31, 2022. The prolonging or expansion of the conflict could have an adverse impact on our consumers and on consumer purchasing behavior, and result in delays of new orders and completing sales, order cancellations, or payment and shipping delays. We will continue to monitor this fluid situation and any adverse impact that it may have on the global economy in general and on our business operations and especially that of our customers in particular, and we will develop contingencies as necessary to address any disruptions to our business operations as they arise.
- **Rising Freight Shipping and Logistics Costs** - The economic disruption resulting from the COVID-19 pandemic has had an adverse impact on the global freight shipping industry and on the cost of shipping our products to our global network of distributors, dealers and customers, or their import agents, from warehouses in China. Over the past year, the strong rise in demand for Chinese exports has outpaced the availability of containers in Asia, creating a container shortage and huge backlogs in many freight markets around the world, including the U.S., the Middle East, and East Asia. These container shortages at Asian ports have exacerbated supply bottlenecks and further increased shipping costs, by up to 400% in some regions, as companies in Asia are reported to be paying premium rates to get containers back. Further compounding matters is the shortage of dockworkers and truck drivers available to load and unload containers at ports in Europe and the U.S. and to move them to other locations, resulting in congested ports. We are working closely with our supply chain management in Asia, our logistics service providers, and our freight forwarders, to streamline our global shipping and logistics processes, to mitigate any disruption to our operations. Continued disruption and pricing volatility in the global shipping and logistics industry could have a negative impact on our results of operations for the coming periods and beyond.

Results of Operations

The following summary of our results of operations should be read in conjunction with our financial statements and the notes thereto for the three-month periods ended March 31, 2022 and 2021 included herein.

Comparison of Three Months Ended March 31, 2022 and Three Months Ended March 31, 2021

The following table summarizes the results of our operations during the three-month periods ended March 31, 2022 and 2021 and provides information regarding the dollar and percentage increase or (decrease) in such periods:

Item	Three Months Ended March 31,		Increase (Decrease)	Percentage Increase (Decrease)
	2022	2021		
REVENUES	\$ 24,228,108	\$ 12,896,475	\$ 11,331,633	88%
COST OF REVENUES	14,601,018	6,844,521	\$ 7,756,497	113%
GROSS PROFIT	9,627,090	6,051,954	\$ 3,575,136	59%
PRODUCT ROYALTY INCOME	78,839	24,810	\$ 54,029	218%
OPERATING EXPENSES				
Salaries and Wages	1,297,962	924,537	\$ 373,425	40%
Commissions and Consulting	162,586	220,662	\$ (58,076)	-26%
Professional Fees	259,115	337,755	\$ (78,640)	-23%
Advertising and Marketing	613,890	517,580	\$ 96,310	19%
Office Lease and Expenses	207,021	87,373	\$ 119,648	137%
Research and Development Costs	533,700	405,105	\$ 128,595	32%
Bad Debt Expense	18,324	65,825	\$ (47,501)	-72%
General and Administrative	711,752	528,599	\$ 183,153	35%
Depreciation	276,924	236,535	\$ 40,389	17%
Total Operating Expenses	4,081,274	3,323,971	\$ 757,303	23%
INCOME FROM OPERATIONS	5,624,655	2,752,793	\$ 2,871,862	104%
Other Income (Expenses)	6,157	(4,007)	\$ 10,164	254%
INCOME BEFORE INCOME TAXES	5,630,812	2,748,786	\$ 2,882,026	105%
Income Taxes	1,408,057	687,948	\$ 720,109	105%
NET INCOME	\$ 4,222,755	\$ 2,060,838	\$ 2,161,917	105%

Revenues - We earn revenues from the sale of our protective gear comprising of neck braces, body armor, helmets and other products, parts and accessories both in the United States and abroad. Revenues for the three months ended March 31, 2022 were \$24.23 million, an 88% increase, compared to revenues of \$12.90 million for the quarter ended March 31, 2021. This increase in worldwide revenues is primarily attributable to a \$5.11 million increase in body armor sales, a \$4.15 million increase in helmet sales, and a \$2.48 million increase in other products, parts and accessories, that were partially offset by a \$0.41 million decrease in neck brace sales. Revenues associated with international customers were \$18.94 million and \$7.13 million, or 78% and 55% of revenues, respectively, for the three months ended March 31, 2022 and 2021, respectively.

The following table sets forth our revenues by product line for the three months ended March 31, 2022 and 2021:

	Three months ended March 31,			
	2022	% of Revenues	2021	% of Revenues
Neck braces	\$ 1,531,479	6%	\$ 1,937,266	15%
Body armor	12,482,393	52%	7,376,736	57%
Helmets	5,688,513	23%	1,540,895	12%
Other products, parts and accessories	4,525,723	19%	2,041,578	16%
	\$ 24,228,108	100%	\$ 12,896,475	100%

Sales of our flagship neck brace accounted for \$1.53 million and \$1.94 million, or 6% and 15% of our revenues for the quarters ended March 31, 2022 and 2021, respectively. The 21% decrease in neck brace revenues is primarily attributable to a 32% decrease in the volume of neck braces sold to our customers in the United States and abroad during the 2022 period.

Our body armor products are comprised of chest protectors, full upper body protectors, upper body protection vests, back protectors, knee braces, knee and elbow guards, off-road motorcycle boots and mountain biking shoes. Body armor sales accounted for \$12.48 million and \$7.38 million, or 52% and 57% of our revenues for the quarters ended March 31, 2022 and 2021, respectively. The 69% increase in body armor revenues was primarily the result of continued shipments of our footwear category consisting of off-road motorcycle boots and mountain biking shoes and continued remarkable consumer demand for our innovative upper body and limb protectors.

Our helmets accounted for \$5.69 million or 23% of our revenues for the three months ended March 31, 2022, as compared to \$1.54 million or 12% of our revenues for the same 2021 period. The 269% increase in helmet sales is primarily the result of continued strong demand for the Company's expanding and award winning MTB helmet line up that has appealed to a wide range of riders and continued shipments of our redesigned MOTO helmet line up for off-road motorcycle use to our customers in the United States and abroad.

Our other products, parts and accessories are comprised of goggles, hydrations bags and apparel items including jerseys, pants, shorts and jackets as well as aftermarket support items required primarily to replace worn or damaged parts through our global distribution network. Other products, parts and accessory sales accounted for \$4.53 million and \$2.04 million, or 19% and 16% of our revenues for the quarters ended March 31, 2022 and 2021, respectively. The 122% increase in revenues from the sale of other products, parts and accessories is primarily due to strong consumer demand for our MOTO and MTB technical apparel designed for off-road motorcycle and mountain biking use respectively.

Cost of Revenues and Gross Profit - Cost of revenues for the quarters ended March 31, 2022 and 2021 were \$14.60 million and \$6.84 million, respectively. Gross Profit for the quarters ended March 31, 2022 and 2021 were \$9.63 million and \$6.05 million, respectively, or 40% and 47% of revenues, respectively. Our neck brace products continue to generate a higher gross profit margin than our other product categories. Neck brace revenues accounted for 6% and 15% of our revenues for the quarters ended March 31, 2022 and 2021, respectively. Additionally, revenues associated with international customers were 78% and 55% of our revenues for the three months ended March 31, 2022 and 2021, respectively, with revenue associated with international distribution customers continuing to generate a lower gross profit margin than dealer direct sales in the United States. The decrease in gross profit as a percentage of revenues for the three months ended March 31, 2022 was further influenced by a significant increase in global and domestic shipping and logistic costs as a result of the COVID-19 pandemic.

Product Royalty Income - Product royalty income is earned on sales to distributors that have royalty agreements in place, as well as on sales of licensed products by third parties that have licensing agreements in place. Product royalty income for the quarters ended March 31, 2022 and 2021 were \$78,839 and \$24,810, respectively. The 218% increase in product royalty income is due to an increase in the sale of licensed products by licensees during the 2022 period.

Salaries and Wages - Salaries and wages for the quarters ended March 31, 2022 and 2021 were \$1,297,962 and \$924,537, respectively. The 40% increase in salaries and wages during the 2022 period was primarily due to the employment of additional sales professionals and operational warehousing staff in the United States as we expand our selling activities domestically. Additionally, share compensation costs relating to a share issuance made to key personnel in recognition of exceptional performance contributed significantly to the increase in salaries and wages for the 2022 period.

Commissions and Consulting Expense - During the quarters ended March 31, 2022 and 2021, commissions and consulting expenses were \$162,586 and \$220,662, respectively. The 26% decrease in commissions and consulting expenses is primarily the result of a decrease in commissions and incentives paid to both in-house and external sales representatives in the United States in line with a decrease in sales growth in the region.

Professional Fees - Professional fees consist of costs incurred for audit, tax and regulatory filings, as well as patent protection and product liability litigation expenses incurred as the Company continues to expand. Professional fees for the quarters ended March 31, 2022 and 2021 were \$259,115 and \$337,755, respectively. The 23% decrease in professional fees is primarily due to a decrease in product liability litigation expenses incurred during the 2022 period.

Advertising and Marketing - The Company places paid advertising in various motorsport and bicycle magazines and online media and sponsors a number of events, professional teams and individuals to increase product and brand visibility globally. Advertising and marketing expenses for the quarters ended March 31, 2022 and 2021 were \$613,890 and \$517,580, respectively. The 19% increase in advertising and marketing expenditure is primarily due to the production and execution of global marketing campaigns that incorporate athlete sponsorships, event attendance and coordinated digital marketing activities designed to market the Company's growing product offering and increase global consumer engagement.

Office Lease and Expenses - Office lease and expenses for the quarters ended March 31, 2022 and 2021 were \$207,021 and \$87,373, respectively. The 137% increase in office lease and expenses during the 2022 period is primarily due to additional warehouse storage rented in the United States as the Company continues to build out its Reno, Nevada warehouse to accommodate storage and sales of its expanding line-up of exceptional protective gear.

Research and Development Costs - These costs consist of the salaries of personnel who are directly involved in the research and development of innovative products, as well as the direct costs associated with developing these products. Research and development costs for the quarter ended March 31, 2022, increased to \$533,700, from \$405,105 during the same 2021 quarter. The 32% increase in research and development costs is primarily as a result of increased development and certification costs incurred as the Company continues to develop a pipeline of exceptional, innovative protective gear that appeals to a wider rider audience.

Bad Debt Expense - Bad debt expense for the quarters ended March 31, 2022 and 2021 were \$18,324 and \$65,825, respectively. The 72% decrease in bad debt expense is the result of a decrease in provisions made for unrecoverable debts during the 2022 period in line with a decrease in the accounts receivable balance at Two Eleven Distribution in the United States at March 31, 2022 when compared to December 31, 2021.

General and Administrative Expenses - General and administrative expenses consist of insurance, travel, merchant fees, telephone, office and computer supplies. General and administrative expenses for the quarters ended March 31, 2022 and 2021 were \$711,752 and \$528,599, respectively. The 35% increase in general and administrative expenses is primarily due to an increase in expenditures on product liability, general risk and directors and officers' insurance premiums during the 2022 period. A global industry wide increase in insurance risk as a result of the COVID-19 pandemic and increased inventory levels globally as the Company expands its product offerings and selling activities were the primary factors that contributed to these increased premiums.

Depreciation Expense - Depreciation expense for the quarters ended March 31, 2022 and 2021 were \$276,924 and \$236,535, respectively. The 17% increase in depreciation is primarily due to the addition of molds and tooling utilized in the production of the Company's expanding product categories.

Total Operating Expenses - Total operating expenses increased by \$757,303, to \$4.08 million in the three months ended March 31, 2022, or 23%, compared to \$3.32 million in the 2021 period. This increase is primarily due to increases in salaries, general and administrative, research and development and advertising and marketing costs that were partially offset by a decrease in professional fees, commissions and bad debt expenditure discussed above.

Net Income - The net income after income taxes for the quarter ended March 31, 2022 was \$4.22 million, as opposed to a net income of \$2.06 million for the quarter ended March 31, 2021. This 105% increase in net income is primarily due to the increase in sales revenues discussed above.

Liquidity and Capital Resources

At March 31, 2022, we had cash and cash equivalents of \$4.25 million and \$0.06 million of short-term investments. The following table sets forth a summary of our cash flows for the periods indicated:

	March 31,	
	2022	2021
Net cash provided by (used in) operating activities	\$ (686,720)	\$ 1,109,147
Net cash used in investing activities	\$ (225,065)	\$ (34,273)
Net cash used in financing activities	\$ (72,552)	\$ (237,767)
Effect of exchange rate changes on cash and cash equivalents	\$ 207,577	\$ (18,225)
Net increase (decrease) in cash and cash equivalents	\$ (776,760)	\$ 818,882
Cash and cash equivalents at the beginning of period	\$ 5,022,436	\$ 2,967,042
Cash and cash equivalents at the end of period	\$ 4,245,676	\$ 3,785,924

Cash decreased by \$776,760, or 15%, for the three months ended March 31, 2022, when compared to December 31, 2021. The primary uses of cash for the three months ended March 31, 2022 were increased accounts receivable of \$5,097,249 and decreased accounts payable and accrued expenses of \$3,207,604. The primary sources of cash for the three months ended March 31, 2022 were net income of \$4,222,755, decreased inventory of \$1,151,008 and increased income taxes payable of \$1,407,703.

The Company is currently meeting its working capital needs through cash on hand, a revolving line of credit with a bank, as well as internally generated cash from operations. Management believes that its current cash and cash equivalent balances, along with the net cash generated by operations are sufficient to meet its anticipated operating cash requirements for at least the next twelve months. There are currently no plans for any major capital expenditures in the next twelve months. Our long-term financing requirements depend on our growth strategy, which relates primarily to our desire to increase revenue both in the U.S. and abroad.

Obligations under Material Contracts

Pursuant to our Licensing Agreement with Xceed Holdings, a company controlled by Dr. Christopher Leatt, our founder, chairman and head of research and development, we pay Xceed Holdings 4% of all neck brace sales revenue billed and received by the Company on a quarterly basis based on sales of the previous quarter. During the quarters ended March 31, 2022 and 2021, the Company paid an aggregate of \$72,716 and \$62,124, in licensing fees to Xceed Holdings. In addition, pursuant to a separate license agreement between the Company and Mr. J. P. De Villiers, our former director, the Company is obligated to pay a royalty fee of 1% of all our billed and received neck brace sales revenue, in quarterly installments, based on sales of the previous quarter, to a trust that is beneficially owned and controlled by Mr. De Villiers. During the quarters ended March 31, 2022 and 2021, the Company paid an aggregate of \$18,179 and \$15,531, in licensing fees to Mr. De Villiers.

From May 15, 2015 through October 31, 2021, the Company was party to a consulting agreement, dated July 8, 2015, between the Company and Innovate Services Limited, or Innovate, a Seychelles limited company in which Dr. Leatt is an indirect beneficiary, pursuant to which, as amended, Innovate served as the Company's exclusive research, development and marketing consultant, in exchange for a monthly fee of \$42,233; provided that Dr. Leatt personally performs the services to be performed by Innovate under the agreement. Either party had the right to terminate the agreement for convenience, upon six months' prior written notice, or by the Company immediately without notice in the event of Innovate's breach of an obligation under the contract or if Dr. Leatt could no longer perform the services. On November 8, 2021, the Company terminated the agreement with Innovate, effective October 31, 2021, in connection with the wind-up of Innovate's business operations. The termination of the agreement with Innovate will not have an adverse effect on the Company's research and development operations as the Company simultaneously entered into a new consulting agreement with Innovation Services Limited, Jersey limited company beneficially owned by Dr. Leatt, for the same research, development and marketing services, and on substantially the same terms and conditions as the terminated agreement. During the quarters ended March 31, 2022 and 2021, the Company recognized an aggregate of \$0 and \$126,699, respectively, in consulting fees to Innovate.

On November 8, 2021, the Company entered into a consulting agreement with Innovation Services Limited, a Jersey limited company in which, Dr. Christopher Leatt, the Company's founder and chairman, is an indirect beneficiary. Pursuant to the terms of the agreement, Innovation has agreed to serve as the Company's exclusive research, development and marketing consultant, in exchange for a monthly fee of \$42,233; provided, however, that Dr. Leatt must remain an Innovation director and beneficiary of a majority of its ownership interests during the term of the agreement, and Dr. Leatt must remain the Company's primary point of contact responsible for the oversight, review and delivery of the services to be performed by Innovation under the agreement. Innovation may increase its monthly fees, on an annual basis, by no greater than the lesser of: (a) two and one-half percent (2.5%) of the prior year's annualized fee; or (b) a percentage equal to then-applicable annual percentage increase in the Consumer Price Index (CPI) published by the United States Department of Labor's bureau of labor statistics, plus one-half percent (0.5%). The parties further agreed that all intellectual property generated in connection with the services provided under the consulting agreement will be the sole property of the Company. The consulting agreement was effective as of November 1, 2021, and will continue unless terminated by either party in accordance with its terms. Either party has the right to terminate the consulting agreement upon 6 months' prior written notice, except that the consulting agreement may be terminated by the Company immediately without notice if the services to be performed by Innovation cease to be performed by Dr. Leatt, if beneficial ownership in Innovation by Dr. Leatt's and his immediate family members decreases, or for any other material breach of the agreement. The parties have agreed to settle any dispute under the consulting agreement by submission to JAMS for final and binding arbitration pursuant to its Comprehensive Arbitration Rules and Procedures and in accordance with the Expedited Procedures in those Rules. The Company also simultaneously entered into a side letter agreement, dated November 8, 2021, with Dr. Leatt, pursuant to which Dr. Leatt agreed, among other things: (1) not to perform services similar to the services provided under the agreement for any current or future, direct or indirect competitor of the Company or any similar company; (2) not to solicit any current or future employees of the Company for employment with Innovation or any other entity with which he may become affiliated, or to contact or solicit any current or future stockholder or investor of the Company in connection with any matter that is not directly related to the ongoing or future business operations of the Company; and (3) that he will apprise the Company of any business opportunity that he becomes aware of that could benefit the Company so that the Company, can in its sole discretion, make a determination regarding whether to pursue such opportunity in the best interest of the Company and its stockholders. Dr. Leatt further agreed to continue dedicating a majority of his time on matters related to performance of his duties as a director of the Company and to the fulfillment of his obligations to the Company's research and development efforts under the consulting agreement, and the Company will have the right to adjust the amount of the fees payable under the consulting agreement to the extent of any substantial diminution in his fulfillment of such duties and obligations. Accordingly, effective January 1, 2022, the Company's monthly fee to Innovation, increased to \$43,289. During the quarters ended March 31, 2022 and 2021, the Company recognized an aggregate of \$129,867 and \$0, respectively, in consulting fees to Innovation.

Pursuant to a Premium Finance Agreement, dated June 14, 2021, between the Company and AFCO Acceptance Corporation "AFCO", the Company is obligated to pay AFCO an aggregate sum of \$238,696 in eleven payments of \$20,290, at a 4.350% annual interest rate, commencing on June 1, 2021 and ending on April 1, 2022. This payment has been adjusted to \$19,860 due to returned premium. Any late payment during the term of the agreement will be assessed a late penalty of 5% of the payment amount due, and in the event of default AFCO has the right to accelerate the payment due under the agreement. As of March 31, 2022, the Company had not defaulted on its payment obligations under this agreement.

Pursuant to a Premium Finance Agreement, dated October 29, 2021, between the Company and AFCO Acceptance Corporation "AFCO", the Company is obligated to pay AFCO an aggregate sum of \$1,122,858 in eleven payments of \$102,078, at a 4.650% annual interest rate, commencing on November 1, 2021 and ending on September 1, 2022. Any late payment during the term of the agreement will be assessed a late penalty of 5% of the payment amount due, and in the event of default AFCO has the right to accelerate the payment due under the agreement. As of March 31, 2022, the Company had not defaulted on its payment obligations under this agreement.

On November 19, 2018, the Company entered into a \$1,000,000 revolving line of credit agreement with a bank. Payments for the advances under the line bear interest at the LIBOR Daily Floating Rate plus 2.5 percentage points commencing January 1, 2019. The line of credit matured on November 19, 2020, at which time the unpaid principal, interest, or other charges outstanding under the agreement are due and payable. On November 5, 2020, the Company executed an amendment to the line of credit to extend the line of credit facility through November 19, 2021. The amendment took retroactive effect to October 27, 2020 and introduced an index floor so that payments for any future advances will bear interest at the greater of the LIBOR Daily Floating Rate or an Index Floor of 1.25 percentage points plus 2.5 percentage points. Obligations under the line of credit are secured by equipment and fixtures in the United States of America, accounts receivable and inventory of Leatt Corporation and Two-Eleven Distribution, LLC. On March 1, 2021, we executed a second amendment to the line of credit. The amendment took retroactive effect to February 17, 2021, extended the line of credit facility through February 28, 2022 and increased the revolving line of credit to \$1,500,000. Effective January 21, 2022, the Company executed an amendment to the line of credit to extend the line of credit facility through February 28, 2023 and to replace interest determined by LIBOR Daily Floating Rate with the Bloomberg Short-Term Bank Yield Index rate. As of March 31, 2022, there were no advances of the line of credit leaving \$1,500,000 of the line of credit available for advance.

On December 29, 2021, Two Eleven entered into a Loan and Security agreement with a bank, effective December 17, 2021, to finance equipment. The Equipment Note financed under the Loan and Security Agreement has a total value of \$272,519, payable in 36 consecutive monthly installments commencing February 5, 2022, and continuing to January 5, 2025. Interest shall accrue on the entire principal amount of this Equipment Note outstanding from time to time at a fixed rate of 3.5370% per annum. The principal and interest amount of each payment shall be \$7,990. As of March 31, 2022, the amount of \$258,125 was outstanding.

Critical Accounting Policies

Our discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. We have identified the following as the items that require the most significant judgment and often involve complex estimation: revenue recognition, estimating allowances for doubtful accounts receivable, inventory valuation, impairment of long-lived assets, leases and accounting for income taxes.

Revenue and Cost Recognition - The Company's products are sold worldwide to a global network of distributors and dealers, and directly to consumers when there are no dealers or distributors in their geographic area or where consumers choose to purchase directly via the Company's e-commerce website (collectively the "customers").

Revenues from product sales are recognized when earned, net of applicable provisions for discounts and returns and allowances in the event of product defect where no exchange of product is possible. Revenues are recognized when our performance obligations are satisfied as evidenced by transfer of control of promised goods to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. Product royalty income, representing less than 1% of total revenues, is recorded as the underlying product sales occur, in accordance with the related licensing arrangements.

Our standard distributor payment terms range from pre-payment in full to 60 days after shipment and subsequent sales of our products by distributors have no effect on the amount and timing of payments due to us, however, in limited instances qualified distributors and dealers may be granted extended payment terms during selected order periods. In performing such evaluations, we utilize historical experience, sales performance, and credit risk requirements. Furthermore, products purchased by distributors may not be returned to us in the event that any such distributor relationship is terminated.

Since the Company (through its wholly-owned subsidiary) serves as the distributor of Leatt products in the United States, the Company records its revenue and related cost of revenue for its product sales in the United States upon shipment of the merchandise to the dealer or to the ultimate consumer when there is no dealer in the geographic area or the consumer chooses to purchase directly from the Company's e-commerce website and the sales order was received directly from, and paid by, the ultimate consumer. Since the Company (through its South African branch) serves as the distributor of Leatt products in South Africa, the Company records its revenue and related cost of revenue for its product sales in South Africa upon shipment of the merchandise from the branch to the dealer. The Company's standard terms and conditions of sale for non-consumer direct or web-based sales do not allow for product returns other than under warranty.

International sales (other than in the United States and South Africa) are generally drop-shipped directly from the third-party manufacturer to the international distributors. Revenue and related cost of revenue is recognized at the time of shipment from the manufacturer's port when the shipping terms are Free On Board ("FOB") shipping point, Cost and Freight ("CFR") or Cost and Insurance to named place ("CIP") as legal title and risk of loss to the product pass to the distributor. Sales to all customers (distributors, dealers and consumers) are generally final; however, in limited instances, product may be returned and exchanged due to product quality issues. Historically, returns due to product quality issues have not been material and there have been no distributor terminations that resulted in product returns. Cost of revenues also includes royalty fees associated with sales of Leatt-Brace products. Product royalty income is recorded as the underlying product sales occur, in accordance with the related licensing arrangements.

The Company reviews the reserves for customer returns at each reporting period and adjusts them to reflect data available at that time. To estimate reserves for returns, the Company estimates the expected returns and claims based on historical rates as well as events and circumstances that indicate changes to historical rates of product returns and claims. Historically, returns due to product quality issues have not been material and there have been no distributor terminations that resulted in product returns. The provision for estimated returns at March 31, 2022 and December 31, 2021 was \$-0- and \$-0-, respectively.

Sales commissions are expensed when incurred, which is generally at the time of sale or cash received from customers, because the amortization period would have been one year or less. These costs are recorded in commissions and consulting expenses within operating expense in the accompanying consolidated statements of operations and comprehensive income.

Shipping and handling activities associated with outbound freight, after control over a product has transferred to a customer, are accounted for as a fulfillment cost and are included in revenues and cost of revenues in the accompanying consolidated statements of operations and comprehensive income.

Revenue recognized from contracts with customers is recorded net of sales taxes, value added taxes, or similar taxes that are collected on behalf of local taxing authorities.

Allowance for Doubtful Accounts Receivable - Accounts receivable consist of amounts due to the Company from normal business activities. Credit is granted to substantially all distributors on an unsecured basis. We continuously monitor collections and payments from customers and maintain an allowance for doubtful accounts receivable based upon the expected credit losses determined utilizing historical experience and any specific customer collection issues that have been identified. In determining the amount of the allowance, we are required to make certain estimates and assumptions. Accounts receivable balances that are still outstanding after we have used reasonable collection efforts are written off as uncollectible. While such credit losses have historically been minimal, within our expectations and the provisions established, we cannot guarantee that we will continue to experience the same credit loss rates that we have in the past. A significant change in the liquidity or financial position of any of our significant customers could have a material adverse effect on the collectability of our accounts receivable and our future operating results. The allowance for doubtful accounts was \$306,110 at March 31, 2022 and \$291,584 at December 31, 2021.

Inventory Valuation - Inventory is stated at the lower of cost or market. Cost is determined using the first-in first-out (FIFO) method. Inventory consists primarily of finished goods. Shipping and handling costs are included in the cost of inventory. In assessing the inventory value, we make estimates and judgments regarding reserves required for product obsolescence, aging of inventory and other issues potentially affecting the saleable condition of products. In performing such evaluations, we utilize historical experience as well as current market information. The reserve for obsolescence was \$129,839 at March 31, 2022 and \$116,183 at December 31, 2021.

Impairment of Long-Lived Assets - Our long-lived assets include property and equipment. We evaluate our long-lived assets for recoverability whenever events or changes in circumstances indicate that an asset may be impaired. In evaluating an asset for recoverability, we estimate the future cash flow expected to result from the use of the asset and eventual disposition. If the expected future undiscounted cash flow is less than the carrying amount of the asset, an impairment loss, equal to the excess of the carrying amount over the fair value of the asset, is recognized. We have determined there was no impairment charge during the quarters ended March 31, 2022 and 2021.

Operating Leases - The Company determines if an arrangement is a lease at contract inception. Operating leases are included in the right-of-use assets ("ROU"), and lease liability obligations are included in the Company's consolidated balance sheets. ROU assets represent the Company's right to use an underlying asset of the lease term and lease liability obligations represent its obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at the commencement date, based on the present value of lease payments over the lease term. As the Company's leases typically do not provide an implicit rate, the Company estimates its incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. The Company uses the implicit rate when readily determinable. The ROU asset also includes any lease payments made and excludes lease incentives and lease direct costs. The Company's lease terms may include options to extend or terminate the lease when it is reasonably certain that the Company will exercise that option. Lease expense is recognized on a straight-line basis over the lease term. Please refer to Note 3 "Leases", in the Notes to Consolidated Financial Statements for additional information.

Income Taxes - As part of the process of preparing our consolidated financial statements, we are required to estimate our income tax provision (benefit) in each of the jurisdictions in which we operate. This process involves estimating our current income tax provision (benefit) together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included within our consolidated balance sheets. We regularly evaluate our ability to recover the reported amount of our deferred income taxes considering several factors, including our estimate of the likelihood of the Company generating sufficient taxable income in future years during the period over which the temporary differences reverse.

Recent Accounting Pronouncements

See Note 11, "Recent Accounting Pronouncements" in the Notes to Consolidated Financial Statements for a full description of recent accounting pronouncements, including the respective dates of adoption, or expected adoption and effects on our consolidated financial position, results of operations and cash flows.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on its financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to its stockholders.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not Applicable.

ITEM 4. CONTROLS AND PROCEDURES.**Disclosure Controls and Procedures**

As of March 31, 2022, the Company's management, under the direction of its Chief Executive Officer and the Chief Financial Officer, Mr. Sean Macdonald, carried out an evaluation of the effectiveness of the design and operation of the disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms, and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer determined that the Company's disclosure controls and procedures were deemed to be effective.

Changes in Internal Controls Over Financial Reporting

There were no changes in our internal controls over financial reporting during the period ended March 31, 2022, that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II**OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS.**

From time to time, we may become involved in various lawsuits and legal proceedings in the ordinary course of our business. Other than as set forth below, we are currently not aware of any legal proceedings the ultimate outcome of which, in our judgment based on information currently available, would have a material adverse effect on our business, financial condition or operating results.

On April 3, 2018, a wrongful death lawsuit was filed against the Company in Superior Court of California, Imperial County, and subsequently removed to USDC San Diego. The claims asserted included strict liability, negligence, failure to warn, and breach of implied and express warranties. After facing a vigorous defense, the plaintiffs agreed to a confidential settlement dismissing all claims against the Company. A formal dismissal order has not yet been entered.

ITEM 1A. RISK FACTORS.

There are no material changes from the risk factors previously disclosed in Item 1A "Risk Factors" of our annual report on Form 10-K for the period ended December 31, 2021.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

None.

ITEM 5. OTHER INFORMATION.

We have no information to disclose that was required to be in a report on Form 8-K during the period covered by this report, but was not reported. There have been no material changes to the procedures by which security holders may recommend nominees to our board of directors.

ITEM 6. EXHIBITS.

The following exhibits are filed as part of this report or incorporated by reference:

Exhibit No.	Description
31.1	Certifications of Principal Executive Officer filed pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certifications of Principal Financial Officer filed pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certifications of Principal Executive Officer furnished pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certifications of Principal Financial Officer furnished pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

CERTIFICATIONS

I, Sean Macdonald, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Leatt Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATIONS

I, Sean Macdonald, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Leatt Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
